

About Field Effect

Field Effect, a global cybersecurity company, is revolutionizing the industry by bringing advanced cybersecurity solutions and services to businesses of all sizes.

After years of research and development by the brightest in the business, we have pioneered a holistic approach to cybersecurity.

Our complete Managed Detection and Response (MDR) solution, flexible simulation-based training platform, and expert-led professional services form a unified defense that results in superior security, less complexity, and immediate value.

We build solutions that are sophisticated, yet easy to use and manage, so every business owner can get the hands-free cybersecurity they expect and the sleep-filled nights they deserve.

Our cybersecurity products and services

Covalence

Covalence is our complete Managed Detection and Response (MDR) solution. Powered by cutting-edge technology and a team of cybersecurity experts, Covalence detects and responds to vulnerabilities and threats across your entire business—network, cloud-based services, and endpoints—delivering a truly holistic, end-to-end defence.

Professional Services

Professional Services gives you access to a team of cybersecurity experts who put their rare experience to work for you. We offer immediate incident response to mitigate damage, phishing simulations to test your team's resilience, maturity assessments to gauge your current cybersecurity posture, and more.

Cyber Range

Cyber Range is our cybersecurity training platform that simulates and runs realistic threat scenarios and courses for hands-on learning and cybersecurity education. With a secure Internet connection and web browser, IT teams can easily and quickly set up, stage, and reuse realistic courses and exercises to prepare for security incidents.

Start securing your business today.
