

About Field Effect

Field Effect, a global cyber security company, is revolutionizing the industry by bringing advanced cyber security solutions and services to businesses of all sizes.

After years of research and development by the brightest in the business, we have pioneered a holistic approach to cyber security.

Our complete Managed Detection and Response (MDR) solution, flexible simulation-based training platform, and expert-led professional services form a unified defence that results in superior security, less complexity, and immediate value.

We build solutions that are sophisticated, yet easy to use and manage, so every business owner can get the hands-free cyber security they expect and the sleep-filled nights they deserve.

Our cyber security products and services

Covalence

Covalence is our complete Managed Detection and Response (MDR) solution. Powered by cutting-edge technology and a team of cyber security experts, Covalence detects and responds to vulnerabilities and threats across your entire business—network, cloud-based services, and endpoints—delivering a truly holistic, end-to-end defence.

Cyber Range

Cyber Range is our cyber security training platform that simulates and runs realistic threat scenarios and courses for hands-on learning and cyber security education. With a secure Internet connection and web browser, IT teams can easily and quickly set up, stage, and reuse realistic courses and exercises to prepare for security incidents.

Professional Services

Professional Services gives you access to a team of cyber security experts who put their rare experience to work for you. We offer immediate incident response to mitigate damage, phishing simulations to test your team’s resilience, maturity assessments to gauge your current cyber security posture, and more.
