FIELD EFFECT'S VIRTUAL CISO SERVICE

C-level security expertise
on-demand.

Build a strong, resilient security foundation with 'always-on' CISO support.

If you're spinning your wheels planning for cyber security or executing on your strategy, you're not alone. Whether or not you have in-house support, our Virtual Chief Information Security Officer (vCISO) service offers access to a team of cyber security professionals to strengthen your function.

Put decades of cyber security experience to work for your business. Our vCISO service provides top CISOs and cyber analysts, with expertise across a range of public and private industries, available on-request or long-term to support your needs.

With the right strategic and foundational elements in place, we help you scale your security as your workforce grows, business objectives change, and the threat landscape evolves.

FIELD EFFECT™
Cyber security that keeps business moving.

Design a security program that **protects your data, reduces risk, and demonstrates compliance.**

Strengthen your security, reduce risk, maximize your resources.
Check out a few of the benefits…

SECURITY EXPERTISE
Gain access to independent, unbiased, proven cyber security expertise, methodologies, and resources.

STRATEGIC COUNSEL
Access strategic counsel for setting objectives and developing strong security programs that address your specific business needs.

REDUCED ONBOARDING AND ADMINISTRATION
Minimize onboarding, training, turnover, and administrative overhead.

LOWER SECURITY RISK
Reduce security risk through strong security programs that address the specific needs of your business and align with business outcomes.

ON-DEMAND STRATEGY AND SERVICES
Experience the flexibility and convenience of immediate, on-demand, or long-term security strategy services and support.

SUPPORT FOR IT STAFF
Support and strengthen overburdened IT staff.

IMPROVED VISIBILITY
Gain a better view of threat activity and areas of vulnerability across your entire IT infrastructure — endpoints, cloud services, and network.

STRONGER SECURITY CULTURE
Strengthen your cyber security culture with tailored employee training, best practices, and policies.

ALIGN WITH SECURITY FRAMEWORKS
Map your strategy and measures to cyber security frameworks, such as:

- NIST Cyber Security Framework 800-53
- Canadian Centre for Cyber Security Baseline Controls
- UK Cyber Assessment Framework

MANAGE COMPLIANCE AND AUDITS
Improve audit management and ensure compliance with industry regulations, such as:

- Payment Card Industry Data Security Standard (PCI DSS)
- Health Insurance Portability and Accountability Act (HIPAA)
- General Data Protection Regulation (GDPR)
- Financial Industry Regulatory Authority (FINRA)

Leverage immediate, on-demand, or long-term **vCISO services tailored to your business.**

Here are a few ways our vCISO service can help your business ...

✓ Cyber security and privacy policies, standards, procedures, and guidelines tailored to your specific needs and business goals

✓ Strategic security objective setting that supports business-critical technology needs and improves management of IT administration

✓ Security strategy and planning, informed by discovery and assessment of your current environment and organization, designed to secure assets and data, reduce risk, ensure compliance, and align with business objectives

✓ Management or direction of information security teams

✓ Engagement and alignment with executive management, boards, investors, and government agencies

✓ Risk assessment and compliance management

✓ Enterprise security management, including system configuration guidelines and network design, threat intelligence, detection, and response capabilities

✓ Online security training for employees and incident response preparation

✓ Post security breach and crisis management
